

## WORKING METHODS EPICOR

Quality is reflected in everything we do. Not just in our products and services, but also in our communication. We like to differentiate ourselves with fast response times and flexibility. Upon receiving your enquiry, we will endeavour to send a proposal as efficiently as we can. Each customer will have a dedicated point of contact to ensure continuity from initial enquiry right through to delivery and for after-sales advice.

We also evaluate our suppliers regularly. Quality is our top priority throughout the supply chain, whilst also maintaining a competitive level of pricing.

## THE BRANDS EPICOR

And also total range of Display solutions for standard and custom.

## TEAM EPICOR

We invest in people and are dedicated to ensuring personal growth within our talented team. Our team is highly experienced, enthusiastic and multilingual. We create an ideal environment for our team to thrive and engage successfully with our valued customers.

## CERTIFIED EPICOR

**EPICOR**  
components

**EPICOR**  
EXPECT MORE

Since 1994 a high service level distributor for the electronic industry

**MORE THAN FRANCHISE**

## ABOUT EPICOR

Harald Brökling founded Epicor Components in partnership with an Australian franchise distributor in 1994. Epicor Components quickly grew to be a globally focused and quality-driven supplier in a wide range of markets.

We operate as an informal, flat organization with short lines of communication, based in a historic bank building in Vlaardingen. With an impressive track record and experience, we have established long-term relationships with suppliers and customers across the Industrial, Commercial, Automotive, and Medical sectors. In short, we have a diverse team, and that's something we're truly proud of.

## DISPLAYS EPICOR

Epicor Components is excited to announce – In direct collaboration with our franchise partner, we now offer a wide range of touch solutions and displays. Whatever your application needs, we can assist from the design stage and offer technical support in the sample and production stages.

Whether it is for existing design or a brand-new project for a fully customized solution, we work with a team of Product Specialists to offer the best technology for your needs.

For existing designs and/or standard displays, we can supply either the original brand or a 100% equivalent display.

We would be delighted to be part of your project!
